

# Nguyen Hong Quan

Software Developer

## Profile

Experienced Software Developer with expertise in design, coding, testing and maintenance of software systems. Equipped with a diverse and promising skill-set. Proficient in various platforms, languages, and other systems. Experienced with cutting-edge development tools and procedures. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

### SKILL DETAILS

- **Backend Development:** Experienced in Java (Spring, Spring Boot) and Node.js, with knowledge of C# (.NET Framework) and PHP (Laravel).
- **Frontend:** Basic knowledge of HTML, CSS, JavaScript, React framework
- **API Development:** Proficient in designing and working with RESTful APIs.
- **Databases:** Strong expertise in SQL Server, including developing and managing stored procedures, performance tuning (indexing strategies, query optimization, execution plan analysis), and database normalization.
- **Development Tools:** Proficient in using VS Code, Visual Studio for development, experienced with Postman for API testing
- **Version Control:** Strong command of Git for source code management and collaboration, with experience using tools like Git extensions and SourceTree for streamlined workflows and enhanced repository management
- **Software Architecture:** Solid understanding of Object-Oriented Programming (OOP) principles, MVC, RESTful architecture, and web application system design.
- **Deployment & DevOps:** Familiar with deploying, monitoring and managing systems on Azure cloud (App Service, Data Factory...), experience with Docker.

### WORK MINDSET & PROFESSIONAL APPROACH

- **Optimization-Oriented:** Always focused on improving performance, code efficiency, and system scalability.
- **Time Management:** Highly skilled in prioritizing tasks, meeting deadlines, and balancing multiple projects effectively.
- **Problem-Solving:** Analytical thinker who proactively identifies issues and implements effective solutions.
- **Collaboration & Communication:** Strong team player with excellent communication skills to coordinate with cross-functional teams and stakeholders.
- **Continuous Learning:** Passionate about staying up-to-date with emerging technologies and best practices to enhance productivity and software quality.
